BULLEID PERIOD LOCOMOTIVES

This catalogue lists the four Bulleid steam locomotive classes – Q1, Merchant Navy, West Country/Battle of Britain and Leader – along with the diesels and electrics built during his tenure as CME (or to these designs during the BR period). The catalogue also lists the USA dock tanks which were bought during this period.

The order of data for each entry is as follows:

Negative number, locomotive number, locomotive name if applicable, date if known, aspect of locomotive in the photograph (right or left; $\frac{3}{4}$, broadside or head on; front or rear), location if known, any other relevant comment, eg livery
