

**SOUTHERN  
RAILWAY LOCOMOTIVES  
PART 2  
MAUNSELL NAMED CLASSES:  
KING ARTHUR (including LSWR built  
N15), LORD NELSON, SCHOOLS**

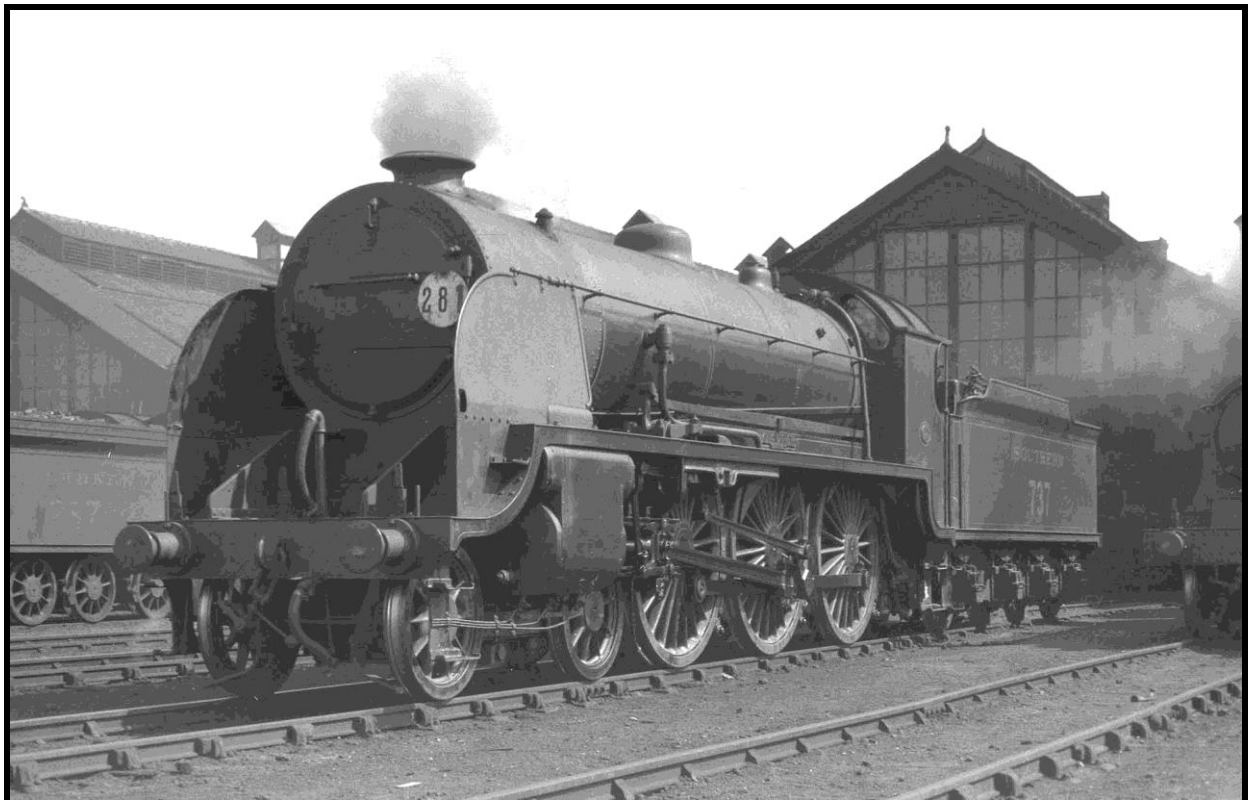

**LENS OF SUTTON ASSOCIATION  
List 24 (Issue 1 August 2007)**

**SR E765 Sir Gareth at Dover Marine (60521)**

This catalogue lists the 3 classes of passenger engines which were built under Maunsell's direction that carried names; the King Arthur class 4-6-0s (N15), the Lord Nelson class 4-6-0s (LN) and the Schools class 4-4-0 (V). The King Arthur class listing includes the LSWR built examples and although these were built before Maunsell's tenure we feel they are best incorporated into this catalogue rather than into a solely LSWR listing. The first number of an entry is the negative number which must be quoted when ordering.
