SOMERSET & DORSET JOINT RAILWAY

Formed in 1862 by the amalgamation of the Somerset Central and Dorset Central railways, the Somerset & Dorset Railway was taken over jointly by the Midland and London & South Western companies in 1876. Somerset & Dorset services ran from Bath to Bournemouth, Bath Green Park station at the northern end of the route being a Midland station while, at the southern end of the route, SDJR trains used part of the LSWR between Broadstone and Bournemouth West. The SDJR system also included branches to Burnham-on-Sea, Bridgwater, Wells and Wimborne. The following list of photographs from the Lens of Sutton Collection includes a number of views taken at Bath, Bournemouth and other LSWR stations, as well as stations on the SDJR main line and branches.
